ONLINE DATING

Online dating. Whatever, let's give it a try.

The guys are all superficial and only look for chicks.

I'll prove to my friends that all the users do is lie.

There, I created a profile with supermodel pics ...

Oh, look! What did I say? "Angelina" got a match!

Eric likes to snowboard, surf and has a cat.

Not bad looking either. What a catch!

But what now he wants to chat.....

Weeks go by, and all we do is talk day and night

But I can't keep going on pretending to be someone who isn't me

Somehow we became so tight

I couldn't keep on lying and decided to spill the tea...

Finally, I tell him I'm not the Angelina that he likes and this is not us

And he says, I know Kathy, I'm the one who you ignore on the school bus.
