Kid Goes to Heaven and Back

Welcome back to our serious news of the day. Colton Burpo a 4 year old boy has claimed that he has been to heaven and back. The young boy was sent to the hospital when he had a burst appendix for 15 DAYS. His parents were informed by the doctors that it wasn't a big deal. He took medication and when he visited another hospital, it turned out he had a burst appendix. While during the surgery, the boy almost died and his heart stopped for about 10 seconds but was brought back but when he recovered he told his parents that, "I saw a man with a beard sitting on a chair with 2 red crayons on his palm of his hands." "I also saw my dead sibling. She asks me why you haven't given her a name yet." The parents were shocked as they had never told his child of Jesus Christ or about his dead sibling. His parents say that he also talked about his dead grandfather, which passed away when he was 1. Is this true? Who knows. You can find out more by reading the book "Heaven is for Real" By Todd Burpo.

Fun Fact:

People around the church from Todd's neighborhood gathered money to pay for the hospital bill.
